

Profile Summary

PRAFUL DHOLARIYA

2 years of experience in Python Backend engineer

Professional Skills

Programming Language	Python
Frameworks/Libraries	Fast-API, Flask, Django, Django-REST, SQLAlchemy, Pymongo, Motor, Pydantic, Pytest, Pandas, Neo4j, Celery, Django-Tenant, Docker, Postman, Git, GitLab
Database	MSSQL, MySQL, SQLite, Postgres, MongoDB, Firebase, Google BigQuery
Client-side Scripting	JavaScript, jQuery, HTML, CSS
Web Server	Nginx, Amazon Web Services
Version Control System	GitHub, Bitbucket
Editors	Visual Studio Code, Cursor, IntelliJ IDEA
Operating System	Windows, Linux

Relevant Work Experience

Project No.: 1 Tieout Project. - Financial Audit Service Application

Technologies: Python, MSSQL, SQLAlchemy, Pytest, Django

Description:

- Reviewed Java code and converted it into Python for the *Tieout* financial audit service application.
- Developed multi-database connectivity with dynamic database connections using proper design patterns in Python.
- Removed duplicate code from existing Python services and developed a shared Python library to streamline and optimize code reuse.
- Developed a testing framework to validate the Python services, including unit tests for essential functions and edge case handling.

Project No.: 2 IoT Secure Project.

Technologies: FastAPI, Python, Pydantic, Pymongo, Motor, MongoDB, Docker, Pytest

Description:

- Developed FastAPIs secured with OAuth2 authentication and integrated MongoDB as the backend database.
- Built a testing framework to validate FastAPIs, including unit tests for essential functions and edge case.

Project No.: 3 Credit Society Data Management

Technologies: Django, Python, HTML, CSS, Google BigQuery

Description: This project consists of developing to **credit society** website with login of member, display ledger details, download pdf file for ledger of member.

Role & Responsibilities:

- Responsible to discuss the needs with the team and stack holders.
- Create stories and task and start working on them.
- Write quality code and test cases.
- any other task related to deployments and testing.

Project No.: 4 Hotel Management System

Technologies: Django, Python, HTML, CSS, nginx

Description: This project involves developing a Hotel Management System, which includes a login feature for hotels to display reservation-related details and implement multi-language support.

Role & Responsibilities:

- Actively engaged in all aspects of the project, hands-on involvement in every task.
- Committed to producing high-quality code and comprehensive test cases.

Project No.: 5 Aadssso Project

Technologies: Python, Postgres

Description: This project consists of developing to **login with multi-tenant** functionality and login with Microsoft' Active Directory.

Role & Responsibilities:

- Took on the responsibility of creating schemas for particular sub-domain and tenant to login with schemas.

Project No.: 6 Salesworx Project - Receipt-Data-Recognition System

Technologies: Python, Flask, Google BigQuery, MongoDB.

Description: This project consists of Conversation of Neo4j from Py2neo lib.

Role & Responsibilities:

- Took on the responsibility of implementing the neo4j library for the project and tested all project functionalities with the neo4j library.

Other Notable Projects

Project	Technology involved
Celery Package	Python, Django

Work Experience

S.N.	Description
1.	DEVPUTERS SOFTWARE APRIL-2023 — Present Software Engineer • Python Developer
2.	KV AFS NALIYA APRIL-2016 — MARCH-2023 Computer Instructor • Taught computer subject in six to ten classes. • Maintain Organization Website and other IT related work.
3.	FREELANCER MAY-2020 — SEPTEMBER-2020 Android App Developer • Smart Study E Learning (Developed Android App for Primary Students of Gujarat Gov during Lockdown period of India using Java and Firebase for data management)
4.	SARVODAYA EDUCATION NETWORK JUNE-2012 — FEBRUARY-2016 Head of Technical Department • Taught computer subject in ten class. • Worked with IT team to manage edit workstations, technical problems and post production infrastructure.
